PIERCE UNDERWOOD, 140 Dearborn Street, Chicago, Ill .:-Dear Sir-I have recently returned from a week's visit to Idaho Springs, Colorado, where I went, as you know, to inspect the properties and operations of the Hoosac Tunnel and Mining Co., in connection with the anticipated purchase of several thousand shares of capital stock.

I beg to say that I have found the conditions of the Company and its properties exactly as they were represented to me. I believe the enterprise will be the success you anticipate for it, and I am pleased to assure you that several of my friends, including

myself, will be substantial stockholders in your company.

Assuring you of my esteem and hearty co-operation in behalf of the best interests of the enterprise, I am very truly yours,

Mr. Whitney wanted to see for himself. "Show Me" was his motto, and show him they did.

Pierce Underwood, the Chicago investment specialist, reports an immense popular demand for good mining shares. Mr. Underwood is financing the Hoosac Tunnel and Mining Co. of Idaho Springs, Col. Although the proposition has been presented to the public only a few months, Mr. Underwood says that all the money necessary to carry out the project of the company has been subscribed and that after March 31 all unsold stock will be withdrawn from the market.

The Hoosac Tunnel and Mining Co. is building a transportation tunnel through one of the richest mining districts in the State of Colorado. When completed the company will operate the tunnel, and the great mines along the line of the tunnel are expected to send through it an annual tonnage that will assure a very large profit to the company. In addition, the company owns one of the largest and most reliable ore boules in the district, from which the lowest estimate states that millions should accrue to the stockholders of

The company has the best of references including a number of leading banks in the West, and the fact that it is a fransportation enterprise as well as a mining proposition

Mr. Whitney wanted to see for himself. "Show Me" was his motto, and show him they did.

Many others have done the same thing, and I wish you would do likewise—get out and see for yourself, that the Hoosac Tunnel and Mining Co. is all I claim for it. If you can't go you can write the men on the ground who know and they will tell you the Company is reliable. The management is O. K. The properties are valuable and should produce the results I claim for stability that justifies its being held at par, and none of the Treasury Stock (if any remains for them. J. A. TOWNSEND, Capitalist, Specialist in Profitable Investments, 140 Dearborn St., Chicago, Financial Agent of the Hoosac Tunnel and Mining Co.

FROM JANUARY 18, 1906, ISSUE OF THE IDAHO SPRINGS SIFTINGS-NEWS:—
The tunnel is already equipped with a splendid plant of machinery, including an 80 horse power boller and a 10 drill Leyner air corpressor, and the mouth of the tunnel is located at a most advantageous point, being within a stone's throw of the Colorado and Southern Railway and the side tracks at the mouth of Trail Creek, where coal and supplies may be delivered at a small cost. This will permit of shipping the lowest grades of ore that may be choountered and it need never be touched with a shoved, and when broken down in the stopes can be loaded into the transform the chutes, after which it may be dumped directly into the railway cars for shipment to the smelters, or thrown into the crushing machinery of the concentrating mill.

Mining men familiar with the Hoosac undesitatingly say that it is one of the most attractive mining tunnels in the district, and they predict that it will become an extremely produble proposition.

Safety of the Company's Management.

The Hosac Tunnel and Mining Company has for its President and active Manager and one of the principal owners of the enterprise. Mr. P. D. Quigley, who for 35 years has been one of the foremost operators of the Idaho Springs and several of the principal banks of Denver, by the enterprise without digression or interruption to the greatest possible manner, with all regard to safety, economy and general business prudence. Mr. Quigley is a man of exception, experience and by all regard to safety, economy and general business prudence. Mr. Quigley is not a Wall street magnate, achooled in the fine art of stock jobbing and manipulation of the people's money, the lagost round will expressed in an editorial in the ladae Springs ways, as follows:

"Mr. Quigley, to whom the credit is due for having successfully financed this proposition, is one of our oldest and most conservative mine operators. He has a thorough knowledge of the mines of Gilpin and Clear Creek counties, his operations therein covering a period of 35 years. He is energetic, experienced and of unquestioned integrity, and every dollar committed to his care will be consecrated to the operation and development of the properties under his charge.

"This, taken in connection with the merit of the propositions named, is a guarantee of a successful issue."

Why You Are Asked to Join.

The Hoosac Tunnel and Mining Company can borrow enough money to accomplish its purpose, but the directors and stockholders will not permit the Company to run into debt to such an extent. There are big capitalists who would put up the money, but they would want to own the business themselves, and then the present owners and you, if you were a stockholder, would not have the predits that the business will surely earn. So you are asked to come in with hundreds of others as a partner and buy at the present ground-floor price as much stock (on easy terms) as you feel you can afford to buy. The management of this Company is such that your investment of \$5.00 or \$50.00, or \$100.00, or whatever it may be, will be as conscientiously accounted for and probably more so than if you were the owner of the Company and had active management in your own charge.

Tails is treasury stock that is offered, and the price at which you can buy it to-day is far below the value at which it will be held when the TUNNEL and MINES of the Company are in active operation. If the estimates of our experts you can pay for, either at once or on monthly instalments. You won't respect to any your income from dividends, it is reasonable to suppose, would be annually per share many times more than you have to pay for it now.

NOTE:—No subscription for less than ten shares will be accepted. If you have \$7.00, or can save \$1.50 s month for five months, you can own ten shares in the Company. Mere if you can pay for them! Don't delay. Subscribe for all you can pay for, either at once or on monthly instalments. YOU WON'T REGRET IT. This stock is fully paid any non-assessable.
